d. Student Fee Conversation -

e. EC Response, Campus Response, follow up petition, Twitter Activity –

- Students believe that the spiritual integrity of the University is at risk because of email sent from EC, and Chapels. Students believe that the chapel has been more liberal leaning than usual. Sophia & Jonah didn't agree with it but apologized for not speaking but stand by it. Jonah says that we should've not included ASC in that email.
- Demarion says there is no correlation with EC and the petition. Doesn't know what they intend with the conversation.

- Have to have Heather read it before something that is politically charged is sent out. Jonah suggests that we have unbiased language in future scenarios and to encourage conversations. Jonah suggests that we be moderate in how we speak on subjects.
 - Demarion thinking about writing in the Collegian as a letter to the editor, not to retract the email but to explain it. Demarion also suggests sending it from his own email so that it makes it easier and simpler.
